

SCHOOL RESOURCE OFFICER REPORT

We wish to congratulate the Class of 2018 for successfully navigating the past twelve years. The SRO's here at RRHS hope that our graduates continue to strive for excellence in future endeavors. We hope that you use the time over the summer to recharge, and begin a new path down the road of life with open minds and hopeful hearts. Good Luck!!

Over the summer break, please be responsible and think about your safety. Don't drink & drive... it's not worth your life or the potential consequences. All too often in our private lives, we see many young people getting into cars & having to blow into an ignition interlock to start their cars due to convictions of DWI / DUI. Don't let this happen to you. Throughout the next few months, around the State, many jurisdictions will be doing various enforcement actions for the "100 Days & Nights of Summer." This includes DWI Checkpoints, Saturation Patrols, Seatbelt Enforcement Patrols as well as Party Patrols. If you are doing the right thing and acting responsibly, it should not be an issue for you.

All the School Resource Officers will be working throughout the summer months assigned to various duties and shifts. If you wish to speak with us prior to next school year, we can be reached through the **Sandoval County Dispatch non-emergency number (505) 891-7226** or leave a message on our desk lines and we will return your call at our earliest convenience:

Please do not hesitate to contact us if you have any questions or concerns.
